Software Engineering Group Projects

TEAM

Something Good?

Here are the deliverables for your project!!!

Turn in hard copies of all final documents, except code & minutes. Include copies of final graded rubric sheets for all technical documents.

CD (USB drive) will have EVERYTHING on it – all final documents, interim and final presentations, minutes of meetings, code, and a README file that says what is on the storage device.

If you have a real world customer, they get a copy of the CD *and* a hard copy of the manual.

Item	% of Project Grade (not necessarily your grade)
Requirements Document (initial <u>9</u> & revised ___) and 2-3 main scenarios ___	15%
Project Plan (initial <u>?</u> & revised ___)	5%
GUI design (initial ___ & revised ___ : eg. storyboard, paper prototype, or screenshots and Navigation Diagram ___)	15%
UML class hierarchy diagram (initial ___ & revised ___) and one other Design Documents (initial ___ & revised ___)	10%
Implementation (on CD – code should be documented)	25%
Test Plan; Test Cases; Test Report (initial ___ & revised ___)	15%
User Documentaion (initial ___ & revised ___)	5%
Final Report	5%
Final Presentation	5%

Final report should include:

- Introduction Section
- Section: Overview of project
- Section:
 - Description of any problems encountered and your solutions to them
 - Description of any deviations from your specifications
 - Description of any known problems remaining in your system
- Section:
 - Description of what you would do if you had more time
 - Description of what you would do different if you had it to do all over again
 - Description of what you learned (as a group or as individuals)
- Summary Section
