Software Engineering Group Projects

TEAM

Something Good?

Here are the deliverables for your project!!!

Turn in hard copies of all final documents, except code & minutes. Include copies of final graded rubric sheets for all technical documents.

CD (USB drive) will have EVERYTHING on it – all final documents, interim and final presentations, minutes of meetings, code, and a README file that says what is on the storage device.

If you have a real world customer, they get a copy of the CD *and* a hard copy of the manual.

Item	% of Project Grade (not necessarily your grade)	
Requirements Document (initial <u>9</u> & revised <u>12</u>) and 2-3 main scenarios <u>12/20</u>	15%	<u>9</u>
Project Plan (initial <u>7</u> & revised <u>14</u>)	5%	<u>3.5</u>
GUI design (initial <u>✓</u> & revised <u>9/10</u> ; eg. storyboard, paper prototype, or screenshots and Navigation Diagram <u>10?</u>)	10% <u>5%</u>	<u>9.5</u> <u>4.2</u>
UML class hierarchy diagram (initial <u>✓</u> & revised <u>9</u>) and one other Design Documents (initial <u>8</u> & revised <u>10</u>) <u>state transition</u>	10%	9 <u>9</u>
Implementation (on CD – code should be documented)	25%	
Test Plan; Test Cases; Test Report (initial <u>12</u> & revised <u>✓</u>)	15%	
User Documentation (initial <u>✓</u> & revised <u>✓</u>)	5%	
Final Report	5%	
Final Presentation	5%	

Final report should include:

- Introduction Section
- Section: Overview of project
- Section:
 - Description of any problems encountered and your solutions to them
 - Description of any deviations from your specifications
 - Description of any known problems remaining in your system
- Section:
 - Description of what you would do if you had more time
 - Description of what you would do different if you had it to do all over again
 - Description of what you learned (as a group or as individuals)
- Summary Section
